

## Product Data Sheet

### Product: STABLE BEDDING

A specially processed cellulose fiber product developed exclusively for animal bedding. The fibers have unusually high absorbent value, containing the urine in a concentrated area without puddling, so that separate areas can be easily removed and replaced. STABLE BEDDING is a warm comfortable bed requiring less labor and time to setup and replace, and you will use less STABLE BEDDING than many bedding products. STABLE BEDDING is easily available year round.

### Performance Properties:

- Non-toxic, Non-allergenic
- Twice as absorbent as straw or shavings
- Provides superior insulation from heat or cold
- Reduces ammonia odors
- Made from 100% recycled materials

### Product Details:

Dimensions: 28 in x 12 in x 17 in

Weight: 30 lbs

### Precautions:

Material is organic, therefore combustible. Avoid extreme heat and open flame. Thermal decomposition may produce carbon monoxide and carbon dioxide. No known health hazards exist. Cellulose is not listed as a potential carcinogen. See safety data sheet for more information

Manufactured by Thermo-Kool of Alaska at 4191 E. Dimond Way, Wasilla, AK 99645
